PROFESSIONAL EXPERIENCE

Luminar Technolab

Python Developer

02/2024 - 08/2024

Python Developer Intern

- Assisted in developing and testing Python applications.
- Worked on web development projects using Django framework.
- Collaborated with senior developers to troubleshoot and optimize code.
- Contributed to the development of RESTful APIs for web applications.

Projects

BIGMART

Developed a comprehensive e-commerce platform using Python Django for backend services and frontend technologies such as HTML, CSS, and JavaScript. Designed and implemented critical features including user authentication, product management, shopping cart functionality, and order processing. Ensured seamless integration between frontend and backend components for a cohesive user experience. Conducted rigorous testing and optimization to enhance performance and scalability.
